

WELCOME TO THE #LSTE2017

The **Luxembourg Software Testing Event** is a space for exchanging, sharing, debating on the latest trends in software testing. Learn, from the experience of practitioners, how to improve the way you manage your software quality and share your own experiences.

An event organized by **q-leap** with the support of the following Partners & Sponsors!

5 october 2017
Forum Da Vinci
Luxembourg

Speakers

Jorge Asensio *Test Automation Expert / q-leap SA*

As a part of q-leap's Test team, he helps evaluate and improve existing automation frameworks. Furthermore, he contributes towards design, execution, and maintenance of automated test scripts to ensure quality control standards are achieved. He is also an expert with Selenium Browser Automation & Appium for mobile test automation.

Julien Desmulier *Testing & QA Services Manager / q-leap SA*

With 8+ years' into software testing now, he has significant experience in test management for new digital solutions, cross-platform testing, mobile application testing, web testing, as well as data migration projects. He leads the test team at q-leap.

Manivannan Sabarajan *Technical Sales & Cloud Solutions, IBM Hybrid Cloud Unit / IBM*

He has 14+ years of working experience in the software industry in different roles. He helps clients improve their DevOps missions in terms of speed, time to market and quality of their deliverables. As a certified ISTQB professional, his primary focus is on software testing that includes test management and test automation.

Marc Gosselin *IBM Software Cloud Portfolio Representative / IBM*

He has 27+ years of experience in the IT Industry. Since 2001, he has been working for IBM in the capacity of different Sales and Account Management positions. He's a specialist in IBM's Hybrid Cloud which includes Cloud Management, Integration, Process Transformation, DevOps and Platform.

Cédric Messeguer *Managing Director / Digital Security (Econocom)*

After developing his expertise in the Information Systems Security for 12+ years at Telindus, this engineer decided to embark on the entrepreneurial adventure by creating Digital Security, with the support of Econocom.

Peter Stiehl *Hacker / Digital Security (Econocom)*

He's an IT security expert who works on penetration testing (intern, extern, redteam, etc. at Digital Security). During his free time, he is involved in the Hackerzvoice association and seeks vulnerabilities on bug bounty platforms.

Fabrizio Pastore *Research Scientist / SnT, University of Luxembourg*

His research interests are primarily software testing and program analysis. His experience includes research positions in Italy and Switzerland, and collaborations with top companies working in the ICT sector in the context of national and European projects.

Lionel C. Briand *Professor & Vice-Director / SnT, University of Luxembourg*

He is one of the most prolific and most cited researchers in Software Engineering. He conducted applied research and innovation in collaboration with industry, with a focus on software quality assurance and testing, for 25+ years. In 2016, he was also the recipient of an ERC Advanced grant from the European Commission, the most prestigious individual research award in Europe, in the area of software testing.

Agenda

16:30

Welcome Drink

17:00

Opening

Sylvain Perez - CEO, q-leap SA

17:10

Mobile Testing | Live Demo Mobile automated testing on iOS & Android

Jorge Asensio - Test Automation Expert, q-leap SA

Julien Desmulier - Testing & QA Services Manager, q-leap SA

17:45

Virtualization Testing | Test early... Test often... Test continuously

Manivannan Sabarajan - Technical Sales & Cloud Solutions, IBM Hybrid Cloud Unit, IBM

Marc Gosselin - IBM Software Cloud Portfolio Representative, IBM

with the participation of q-leap SA

18:20

Automated & Security Testing | Requirements-Driven Automated Security Testing

Fabrizio Pastore - Research Scientist, SnT, University of Luxembourg

Lionel C. Briand - Professor & Vice-Director, SnT, University of Luxembourg

18:50

Security Testing | New security testing challenges: bug bounty & IoT

Cédric Messeguer - Managing Director, Digital Security (Econocom)

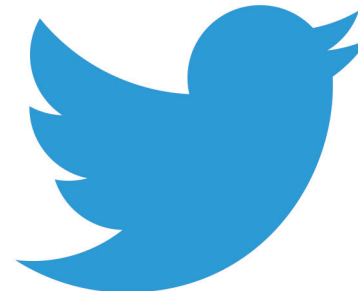

Peter Stiehl - Hacker, Digital Security (Econocom)

19:20

Questions & Answers

19:30

Networking Drink
