

Luxembourg Testing Board

Short introduction

About us, the Luxembourg Testing Board

► About us:

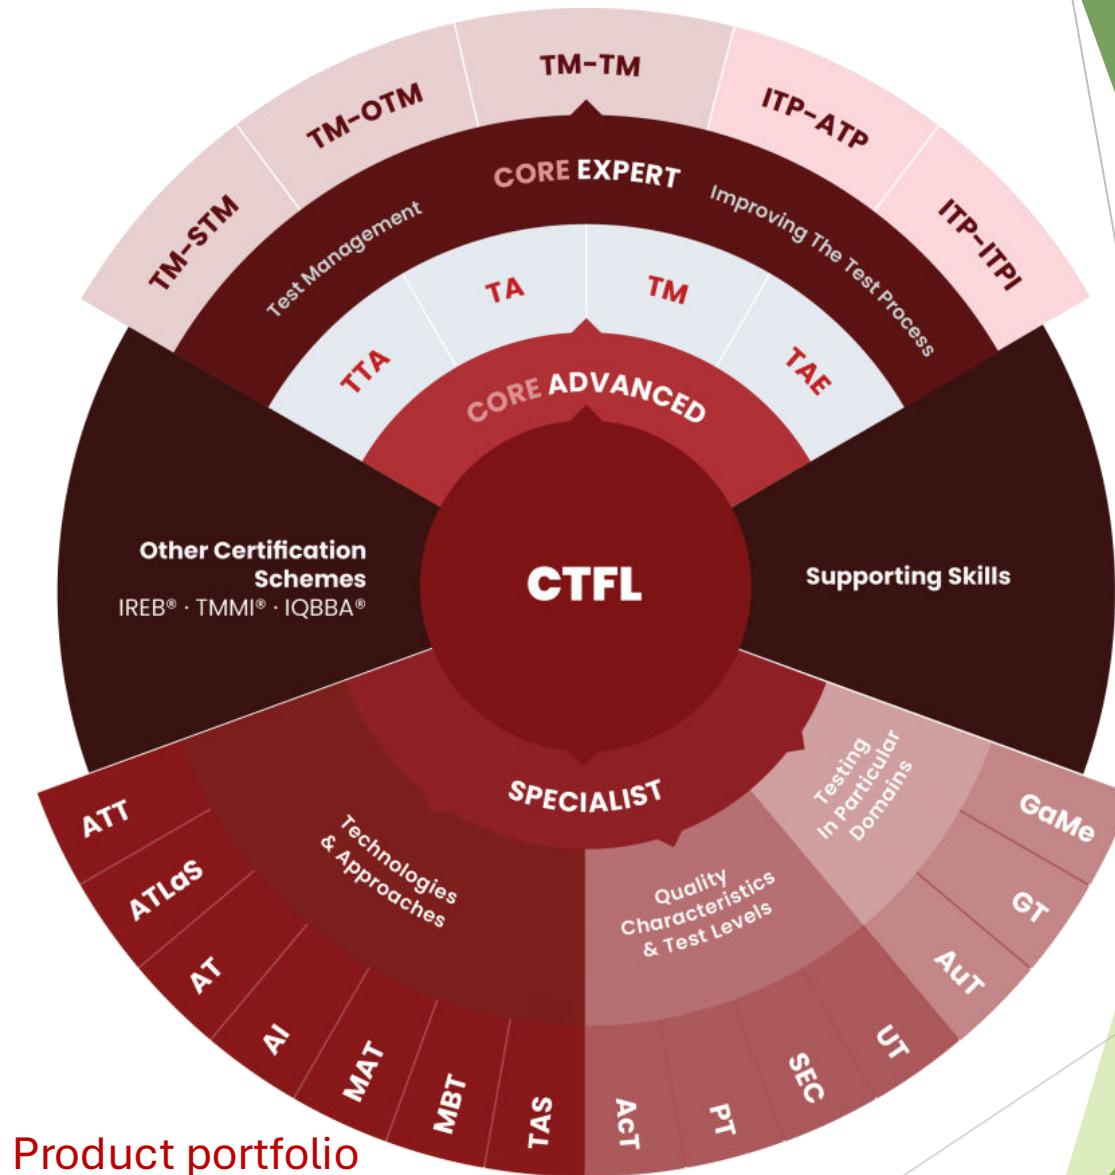

- The importance of software testing is growing every day, in all sectors of activity. Therefore software testing experts in Luxembourg from LIST, UBS, CTG and Eureka-ITS joined forces in **December 2008** and **founded** together the **Luxembourg Testing Board (LTB)** to develop and define standardized contents for training in software testing.
- Since March 2023, the LTB has also been the '**Local Chapter**' of **TMMi®** (Test Maturity Model Integration) in Luxembourg, an international association that helps organizations around the world improve their software testing to guarantee optimum levels of quality for the systems they develop. It is based on a benchmarking of internationally recognized best practices.
- The LTB is part of the **International Software Testing Qualifications Board (ISTQB®)** and accredit independently training organisation. The LTB and the ISTQB® are both internationally recognized, independent and non-profit organizations.

► Our goal is to:

- **Develop a network** dedicated to testing and quality and promote the evolution and enhancements of these topics in the field of IT;
- **Define and promote standardized content** for software testing trainings in Luxembourg according the international "ISTQB Certified Tester" qualification scheme.

Our activities

- ▶ joining ISTQB® working groups to support the developing and reviewing of the different syllabus of testing
- ▶ Participation in ISTQB events
- ▶ Certification
- ▶ Accreditations

Get answers to your questions

Help others solve their challenges.

Share Resources & Tips

Have access to other members' findings.

Make Appointments

Schedule appointments and calls with other members.

Data Security

We will keep all your personal information confidential.

* <https://skillsclub.com/#features>

Focus: purpose of the application

- Networking for specific projects, create a pool of specialists, a dedicated channel for testing professionals and researchers
- Create a more ‘personal community’
- Improve the added value of professional testing

- Marketing of products and self-marketing are not the aim of this community
- Aim is to have a community, SkillsClub is not a service provider

Focus: purpose of the application

Why register to SkillsClub?

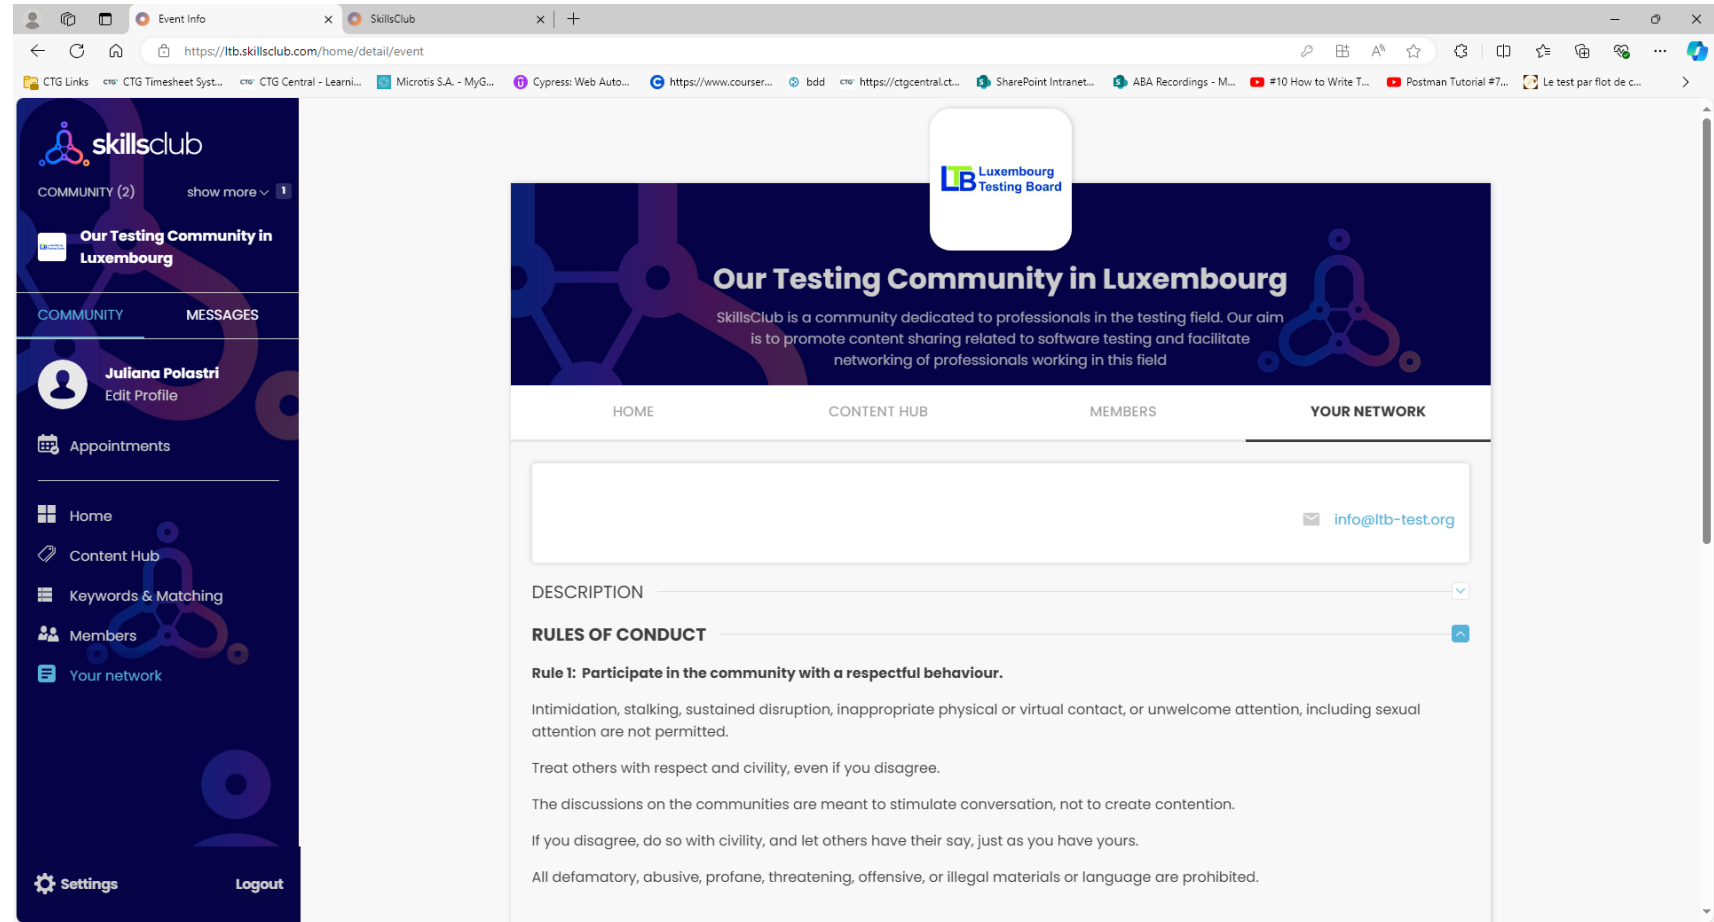

- Specialised topics in software testing
- Secured environment to share content
- Known people in Luxembourg
- Independent : not used for marketing of brands

Values and code of conduct

Rules of conduct :

- Focus on respectful behavior
- Aspects of intellectual property on published content

The screenshot displays the SkillsClub website interface. On the left is a dark blue sidebar with the SkillsClub logo and navigation links: COMMUNITY (2), Our Testing Community in Luxembourg, COMMUNITY, MESSAGES, Juliana Polastri (Edit Profile), Appointments, Home, Content Hub, Keywords & Matching, Members, Your network, Settings, and Logout. The main content area features a header for 'Our Testing Community in Luxembourg' with a description of the community's purpose. Below this is a navigation bar with tabs: HOME, CONTENT HUB, MEMBERS, and YOUR NETWORK. The 'YOUR NETWORK' tab is active, showing a contact email 'info@ltb-test.org' and a section titled 'RULES OF CONDUCT'. The rules section includes 'Rule 1: Participate in the community with a respectful behaviour.' followed by a list of prohibited behaviors: intimidation, stalking, sustained disruption, inappropriate physical or virtual contact, or unwelcome attention, including sexual attention; lack of respect and civility; discussions meant to stimulate conversation rather than create contention; and defamatory, abusive, profane, threatening, offensive, or illegal materials or language.

Our Testing Community in Luxembourg

SkillsClub is a community dedicated to professionals in the testing field. Our aim is to promote content sharing related to software testing and facilitate networking of professionals working in this field

HOME CONTENT HUB MEMBERS **YOUR NETWORK**

RULES OF CONDUCT

Rule 1: Participate in the community with a respectful behaviour.

Intimidation, stalking, sustained disruption, inappropriate physical or virtual contact, or unwelcome attention, including sexual attention are not permitted.

Treat others with respect and civility, even if you disagree.

The discussions on the communities are meant to stimulate conversation, not to create contention.

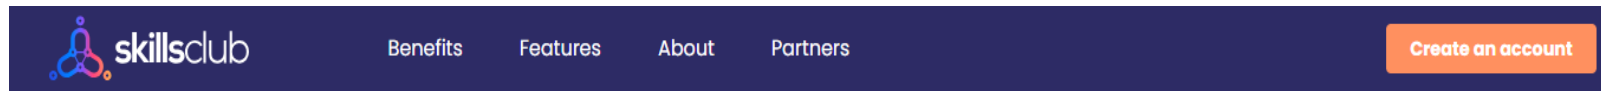

If you disagree, do so with civility, and let others have their say, just as you have yours.

All defamatory, abusive, profane, threatening, offensive, or illegal materials or language are prohibited.

Registration process

- 1) Create an account on [SkillsClub](https://ltb.skillsclub.com/login)

<https://ltb.skillsclub.com/login>

- 2) Complete the registration form and submit
- 3) An e-mail is sent out to applicant to complete the registration process
